

6516206573.txt

Since I have had my XM radio, it has served me well. I get to choose what I listen to and when. This is not left up to a program director or corporation who owns several radio stations in the area, leaving me very little choice. I can take the same programming with me everywhere I go. The weather and Traffic channels are GREAT!

I get comprehensive reports on a continuing basis, (not every 10 minutes after several commercials or wornout songs), without regard to where I live in the area or the station's target audience.

I OPPOSE HR 4026

SERVE THE PUBLIC! KEEP THE COMPETITION!
